## Plans Drawn For Club House at Jewett City

Jewett City is to have one of the finest and most modern cittle houses in Eastern Connecticut. The Ashland Cotton company in that place are to erect it for its employes and the cost will range up to many thousands of dollars. It will be equipped with all the modern improvements and will be large enough for large social gatherings and community motion pictures. The building is to be %5 feet by \$5 feet and will be two stories in height. The interior will be shingled, sides and roof. It is to be of trame construction.

The plans which have been completed by Architects Cudworth and Thompson call for a basement equipped with shower baths and bowling alleys and other recreation rooms.

On the first floor will be a large half.

On the first floor will be a large hall for dancing and motion riciures with booth for the picture machines. On this floor also will be game rooms and reading rooms.

The second floor will be divided into sewing rooms and other quarters and there will also be a matron's room on this floor. This building fills the need of Jewett City for a place for clean recreation. The building will be adaquately lighted and ventilated and will be a great addition to Jewett City's real estate.

This new building will be the first building of any size that has been erected in this section, outside of the Eastern Power Company's plant at Montvile, since the government ban was placed on building.

The contractors on Monday reported a very favorable outlook for building operations during the coming season and many of them are figuring on contracts of good size to be erected in the near future.
